Déar Sir:

I strongly urge you to see that the manufacture of anthrax vaccine and small pox vaccine is increased at once. I realize this is a very scary and touchy subject and if we are ever attacked with chemical/biological warfare, the number of available vaccines would be a drop in the bucket considering the population of our country.

I, like everyone else, have been so shaken by the senseless attack on innocent people on Sept.11 and hope and pray that we may someday achieve some kind of security for ourselves and our children

Thank you, in advance, for all your efforts.

Sincerely,

[REDACTED]
